

NEWS of FRATERNAL SOCIETIES

Norway's Centennial.

Norwegians of the copper country and upper peninsula are taking a great interest in the preparations for the centennial celebration in Norway, beginning May 17, which will mark the one hundredth anniversary of the accession to the throne of King Christian Frederick, May 17, 1814.

Locally the anniversary will be fittingly celebrated under the auspices of the Norwegian Fremad Society, which will arrange an elaborate program for Calumet. It is likely also that a number of Calumet Norwegians will visit the fatherland this summer to participate in the national celebration.

The scope of the festival will be tremendous, in whose famous cathedral at the rulers of the kingdom have been crowned since the eleventh century. Although the capital has long been Christiania, in this structure and all the edifices of the city, the festival will be reviewed with pomp and pageantry the stirring days of the past when the warriors of Northwestern Europe fought for power and glory.

The celebration, which will continue for several days, will be a unique occasion for strangers to Norway to witness. It is expected that about 100,000 visitors from all parts of the world will go to Norway to witness the festivities and the celebration of the centennial of Norway's freedom.

Ancient customs and habits are to be reviewed by participants and ancient legends will be retold in their original form. Once more the "land of the midnight sun" with its scenic marvels is to be enriched with a revival of the life in the days when Scandinavia was watched over by Thor and Odin.

Easter Monday Ball.

Decision No. 2, A. O. H. will entertain its annual Easter Monday ball in the Calumet Light Guard armory Monday evening. Music will be rendered by the C. & H. orchestra of eight pieces and it is expected the gathering will be a very pleasant one.

The program to be rendered on this occasion is as follows:

- Two-step, National Emblem.
- Waltz, Jolly Fellows.
- Two-step, Irish Bouquet.
- Waltz, You Were All I Had.
- Two-step, Down the Chatterbox.
- Waltz, Beautiful Lady.
- Two-step, What D'ye Mean You Lost Your Foot.
- Waltz, Beautiful Blue Danube.
- Two-step, Floating Down the River.
- Waltz, Peg of My Heart.
- Waltz, Artistic Life.
- Two-step, When It's Apple Blossom Time.
- Waltz, When the Whole World Has Gone Back on You.
- Two-step, Round the Hall.
- Waltz, We Have Much to be Thankful For.
- Two-step, This is the Life.
- Waltz, Come Back to Erin.
- Two-step, International Rag.
- Waltz, Dublin Bouquet.
- Extra, Echoes of Seville.

The committee in charge of the arrangements for this party is composed of John L. Sullivan, Howard Hogan, Dennis Harrington, Joseph D. Foreman, M. C. Gies, James Biney and James L. Dodge. Dennis Harrington will act as promoter for the occasion. It has been decided this year to dispense with the usual supper in connection with the ball, and the event will be more in the nature of a promenade with dancing from 8 to 1 o'clock.

Knights of Golden Eagle.
Grand Lodge, Knights of the Golden Eagle and Calumet Commandery are already looking ahead to the annual picnic and outing to be held next summer. A plan under consideration is to charter a steamer and make a trip to Lake Royale or to some other popular pleasure resort. Committees will be named shortly to go into the matter in greater detail.

Muffins

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.
When muffins are on the breakfast table, they are a great asset. They are not served more often than they should be. They are not prepared so hurriedly that they are not made to make them. If K. C. F. double-egg baking powder is used, it will be in the pan ready for baking and not to do in the morning but bake them.

One-Egg Muffins

1 cup flour; 2 slightly rounded teaspoons K. C. F. baking powder; 1 tea-spoon salt; 1 egg; 1 cup milk; 1/2 cup sugar; 1/2 cup butter or oil.
Mix dry ingredients together three times. Add to this the wet ingredients, mix thoroughly and water or milk. Then beat all together until perfectly smooth. Grease muffin pans and have oven hot. Fill the muffins to the top of the pan. Bake in the hot oven. This recipe makes 12 large muffins. Rubs or currants may be added if desired.

Graham Muffins

1 cup graham flour; 1 cup pastry flour; 2 level teaspoons K. C. F. baking powder; 1 to 2 level tablespoons sugar; 2 eggs; 1/2 cup milk; 1/2 cup butter; 1/2 cup water; 2 to 3 tablespoons melted butter; mix and bake on One-Egg Muffins.
Graham batter should always be quite soft to insure light and moist muffins. To get 33 other recipes as good as these, send us the certificate packed in every 25-cent can of K. C. F. Baking Powder, and we will send you "The Cook's Book" by Mrs. Janet McKenzie Hill. Handsomely illustrated. Jacques Mig. Co., Chicago.

NEEDS \$500,000 FOR HOSPITALS

University of Michigan Will Ask That Much of Legislature

The University of Michigan will ask at least a half million dollars of the state legislature this year for new hospitals, declared Prof. Mortimer N. Cooley, dean of the engineering department of the university at the combined annual banquet of the University of Michigan Alumni association of Grand Rapids and the Grand Rapids club of the University of Michigan at the Hotel Paultine recently.

Prof. Cooley declared that the people of Michigan must make up their minds that the University of Michigan can not continue to longer be run by its own inertia. He pointed out that the aid of the state in past years had not been sufficient to run the institution and referred to the other universities of the country in comparison. The University of Illinois, he asserted, has received \$2,000,000 from the state legislature, millions have been given to the University of Wisconsin, and the University of Minnesota also has received vast sums from the state.

Describes New Buildings.

Professor Cooley described the new buildings which are to be erected at Ann Arbor this year. They include the new power house at a cost of \$250,000. Professor Cooley said that \$750,000 more would be necessary to make the building adequate. The work on the new science hall will begin at once. Professor Cooley said, and he believes this building will cost \$375,000.

Professor Cooley urged the alumni of the University of Michigan to do what the alumni of other colleges are doing for their alma mater, and went into details in showing the need of the Michigan university.

Dr. Victor C. Vaughan, dean of the medical department, after comparing the work of the University of Michigan with other medical schools, declared that the medical department had cost the University of Michigan \$2,000,000 a year more than the income from this department.

"Some universities are founded by men who have more money than they know what to do with, but Michigan University is founded by the intelligence of the people of the state," declared Dr. Vaughan.

Of the University of Michigan students who wrote the state examinations between the years 1908 and 1912 all were passed, Dr. Vaughan said, while 677 graduates of Johns Hopkins university and 12 graduates of Harvard university failed to pass the same examination.

eph Thomas is making excellent headway. Regular practice has been started and the team expects to make a good showing at Ishpeming this summer. The third rank will be conferred at the regular meeting of the lodge Thursday evening.

DISCUSS PAVING AND REMODELING

Extensive Improvement to Be Undertaken in Village This Year

Extensive municipal improvements were discussed at last night's meeting of the Laurium village council and in the event that the proposed work can be done at a cost that is not prohibitive, the town hall will be remodeled and considerable paving will be done. The treasury will warrant an outlay of approximately \$10,000 for street work and it is not unlikely that Lake Linden avenue and Hecla street will be given attention.

Architect Charles Mearns of Houghton presented a sketch of the town hall improvements and basing his estimate of the cost between \$6,000 and \$7,000, he was ordered to draw plans for the remodeling of the structure. The sketch was modified to a great extent, over that which was submitted last year and it is believed that the bid of contractors will not exceed the estimate. The plans are similar to those which have been mentioned previously in the News.

There is little likelihood of concrete paving for Hecla street, because of its high cost and the board unanimously favors tar macadam, a preparation that has withstood various tests on other streets during the last two years. Two blocks on Hecla, from First to Second and Fourth to Lake Linden avenue and five blocks on Lake Linden avenue, from Hecla to Florida streets, will be improved this year.

Because of this work, the council does not desire to consider a new system of ornamental street lighting. Superintendent Curtis of the Houghton County Electric Light company presented estimates on a new system though at least another year will elapse before this will be undertaken. The bonds of various officers were unchanged, that of the marshal having been fixed at \$500; village clerk, \$500; secretary of water board, \$200 and treasurer, \$25,000.

The matter of increased pay for members of the fire department will receive attention at the next regular meeting.
